

COMPANY PROFILE

GLOBAL DESIGNING CONSULTANT CO.,LTD.

INTRODUCTION

GDC is a Design Consulting and Project Management company established in 2005, specializing in industrial construction projects.

More than two decades of development alongside Vietnam's industrial sector have enabled GDC to accumulate practical experience and master technical solutions for many highly demanding projects.

We provide consulting services for manufacturing plants, logistics warehouses, energy facilities, industrial infrastructure, and structures supporting process systems..

Understanding that every project has different conditions and investment objectives, GDC always studies and selects the most suitable solutions, aiming for safety, investment efficiency, and optimum constructability.

At GDC, every drawing is the result of a process of finding the right solution, not merely an expression of a design concept .

GDC PARTNERS WITH INVESTORS TO CREATE QUALITY AND SUSTAINABLE PROJECTS.

DESIGN PHILOSOPHY

“WE FIND THE OPTIMAL SOLUTION FIRST, THEN BRING IT TO LIFE IN THE DRAWINGS.”

- ❖ GDC DOES NOT START WITH DRAWINGS. WE START BY ANALYZING THE ENGINEERING CHALLENGE, SITE GEOLOGICAL CONDITIONS, STRUCTURAL OPTIONS, AND THE OPERATIONAL REQUIREMENTS OF THE FACILITY..
- ❖ ONLY AFTER IDENTIFYING THE OPTIMAL SOLUTION FOR SAFETY, PERFORMANCE, AND INVESTMENT COST DO WE TRANSFORM THAT THINKING INTO ENGINEERING DRAWINGS..
- ❖ THAT IS HOW WE DELIVER FACILITIES THAT ARE SIMPLER, MORE COST-EFFECTIVE, AND MORE EFFICIENT—WITHOUT COMPROMISING TECHNICAL REQUIREMENTS OR DESIGN STANDARDS.

THE RIGHT SOLUTION CREATES PERFECT PROJECTS

OUR SERVICES

I. Geological survey and Topographic survey

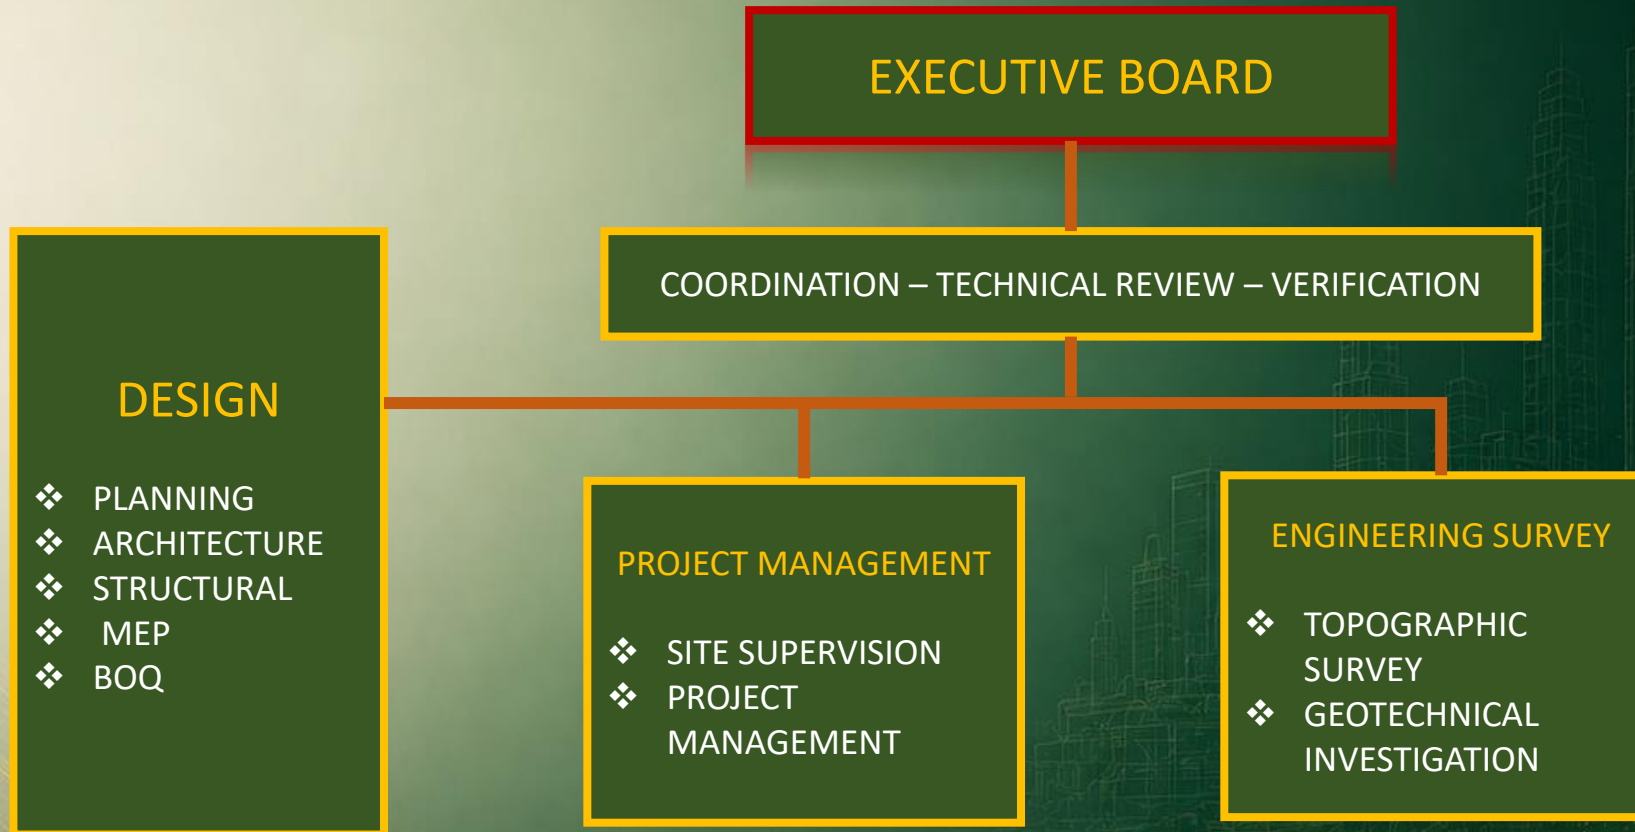

II. Design : + Planning
+ Architectural
+ structural
+ MEP
+ Landscape

III. Construction supervision

IV. Project management

V. Construction legal services

PROJECT EXECUTION PROCESS

❖ THE BEST SOLUTIONS DO NOT COME FROM INDIVIDUALS. THEY EMERGE FROM A SYSTEMATIC PROCESS OF ANALYSIS, CRITICAL THINKING, PEER REVIEW, AND VERIFICATION. THAT IS HOW WE CONSISTENTLY DELIVER HIGH-QUALITY ENGINEERING SOLUTIONS.
